

# Clear Creek Community Connectors

## PURPOSE:

Building connections and a feeling of belonging is a fundamental human need. This truth has become more evident with a pandemic, social distancing, and uncertainty filling our lives. Neighbor to neighbor interactions create the opportunity to connect and provide social support during this uniquely difficult time. Clear Creek Community Connectors will work to develop creative ways to keep neighbors informed and provide opportunity for communication between us. This project will help empower neighbors through community connections, fact-based information, local resources, and empathetic conversation.
